Explanation of Responses:

- In connection with the settlement of a call option entered into on March 22, 2006, as part of a zero-cost collar arrangement, the reporting person paid to the option holder, for each share of stock subject to the option, the difference between the market price on December 21, 2006 and the exercise price.
- In a Form 4 filed on March 24, 2006, the exercise date and expiration date were incorrectly stated. The correct dates are shown in this Form 4.
- The price received for the call option offset the price paid for the put option, with the effect that no premium was due on the transaction.
