## World Fuel Services Corporation Reports Third Quarter 2016 Earnings

--- Aviation segment posts record results ---

MIAMI—October 27, 2016-- World Fuel Services Corporation (NYSE: INT) today reported third quarter net income of \$42.7 million or \$0.61 diluted earnings per share compared to \$43.7 million or \$0.62 diluted earnings per share in the third quarter of 2015. Excluding the impact of certain non-recurring expenses, adjusted third quarter net income was \$45.1 million or \$0.65 adjusted diluted earnings per share. Non-GAAP net income and diluted earnings per share for the third quarter, excluding share-based compensation and amortization of acquired intangible assets were \$57.2 million and \$0.82, respectively, compared to \$54.2 million and \$0.77 in 2015.

"Our aviation segment posted record results in the third quarter driven by seasonally strong core resale operations in North America, Europe and Asia as well as continued strength in government-related fueling activities, illustrating the strength of our diversified portfolio as it served to offset continued weakness in the marine markets," stated Michael J. Kasbar, chairman and chief executive officer of World Fuel Services Corporation. "As we continue to develop and integrate our broad-based global energy management, fulfillment and payment platforms, our focus on increasing operating efficiency and expanding our value-added service offerings will serve us well as we look to execute on our long-term growth initiatives."

The company's aviation segment generated gross profit of \$111.7 million, an increase of \$4.8 million or 4.5% year-over-year. The company's land segment posted gross profit of \$87.8 million, an increase of \$16.5 million or 23.2% year-over-year. The company's marine segment generated gross profit of \$37.2 million, a decrease of \$11.4 million or 23.4% year-over-year.

"We again generated positive operating cash flow this quarter, further contributing to our strong liquidity profile," said Ira M. Birns, executive vice president and chief financial officer. "As announced today, we also amended our credit facility, which increases the aggregate size of our revolving credit facility and term loan by approximately \$500 million to \$2.1 billion, extends the term of the facility to October 2021 and offers more favorable terms, all of which provides us with even greater flexibility to execute on our strategic growth initiatives."

#### Non-GAAP Financial Measures

The non-GAAP financial measures exclude costs associated with share-based compensation, amortization of acquired intangible assets, expenses related to acquisitions and other related charges, deferred revenue purchase accounting adjustments, and termination of employment agreement primarily because we do not believe they are reflective of the Company's core operating results. We believe the exclusion of share-based compensation from operating expenses is useful given the variation in expense that can result from changes in the fair value of our common stock, the effect of which is unrelated to the operational conditions that give rise to variations in the components of our operating costs. Also, we believe the exclusion of the amortization of acquired intangible assets, the expenses related to acquisitions and other related charges, and termination of employment agreement expenses are useful for purposes of evaluating operating performance of our core operating results and comparing them period over period. In accordance with the fair value provisions applicable to the accounting for business combinations, acquired deferred revenue is often recorded on the opening balance sheet at an amount that is lower than the historical carrying value. Although this acquisition accounting requirement has no impact on our business or cash flows, it adversely impacts our reported GAAP revenue in the reporting periods following an acquisition. We believe that the exclusion of the deferred revenue purchase accounting adjustment is useful to investors as an additional means to reflect trends of our business and provides investors with financial information that facilitates comparison of both historical and future results. We believe that these non-GAAP financial measures, when considered in conjunction with our financial information to our GAAP results.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. In addition, our presentation of non-GAAP net income and non-GAAP diluted earnings per common share may not be comparable to the presentation of such metrics by other companies. Non-GAAP diluted earnings per common share is computed by dividing non-GAAP net income attributable to World Fuel and available to common shareholders by the sum of the weighted average number of shares of common stock, stock units, restricted stock entitled to dividends not subject to forfeiture and vested RSUs outstanding during the period and the number of additional shares of common stock that would have been outstanding if our outstanding potentially dilutive securities had been issued. Investors are encouraged to review the reconciliation of these non-GAAP measures to their most directly comparable GAAP financial measures.

#### <u>Information Relating to Forward-Looking Statements</u>

This release includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our expectations about our strategic growth initiatives, operating efficiency, and expansion of our value-added service offerings. These forward-looking statements are qualified in their entirety by cautionary statements and risk factor disclosures contained in the company's Securities and Exchange Commission ("SEC") filings, including the company's Annual Report on Form 10-K filed with the SEC on February 16, 2016. Actual results may differ materially from any forward-looking statements due to risks and uncertainties, including, but not limited to: our ability to effectively integrate and derive benefits from acquired businesses, our ability to capitalize on new market opportunities, potential liabilities and the extent of any insurance coverage, the outcome of pending litigation and other proceedings, the impact of quarterly fluctuations in results, the creditworthiness of our customers and counterparties and our ability to collect accounts receivable, fluctuations in world oil prices or foreign currency, changes in political, economic, regulatory, or environmental conditions, adverse conditions in the markets or industries in which we or our customers and suppliers operate, our failure to effectively hedge certain financial risks associated with the use of derivatives, non-performance by counterparties or customers on derivatives contracts, loss of, or reduced sales, to a significant government customer, uninsured losses, the impact of natural disasters, adverse results in legal disputes, unanticipated tax liabilities, our ability to retain and attract senior management and other key employees and other risks detailed from time to time in the company's SEC filings. New risks emerge from time to time and it is not possible for management to predict all such risk factors or to assess the impact of such risks on our business. Accordingly, we undertake no obl

#### About World Fuel Services Corporation

Headquartered in Miami, Florida, World Fuel Services is a global fuel logistics, transaction management and payment processing company, principally engaged in the distribution of fuel and related products and services in the aviation, marine and land transportation industries. World Fuel Services sells fuel and delivers services to its clients at more than 8,000 locations in more than 200 countries and territories worldwide.

The company's global team of market makers provides deep domain expertise in all aspects of aviation, marine and land fuel management. Aviation customers include commercial airlines, cargo carriers, private aircraft and fixed base operators (FBOs), as well as the United States and foreign governments. World Fuel Services' marine customers include international container and tanker fleets, cruise lines and time-charter operators, as well as the United States and foreign governments. Land customers include petroleum distributors, retail petroleum operators, and industrial, commercial, residential and government accounts. The company also offers transaction management services which consist of card payment solutions and merchant processing services to customers in the aviation, marine and land transportation industries. For more information, call 305-428-8000 or visit www.wfscorp.com.
