<sup>(1)</sup> Includes gallons and gallon equivalents converted as described in the table below.

<sup>&</sup>quot;As our team continues to deliver for our global customer base, evidenced by our solid results within the quarter, we remain focused on our strategy to accelerate growth by maximizing efficiencies in our conventional business, expanding our suite of energy-management solutions and increasing the availability of renewable and low-carbon fuels," said Michael J. Kasbar, Chairman and Chief Executive Officer. "We remain focused on enhancing our performance and driving greater value for our shareholders, and are optimistic about the opportunities which lie ahead."

<sup>&</sup>quot;Despite marine's decline from last year's near record performance, we delivered solid results this quarter, benefiting, in part, from our emerging sustainability-related business activities which continue to grow," said Ira M. Birns, Executive Vice President and Chief Financial Officer. "Despite higher fuel prices during the quarter, we also generated \$80 million of operating cash flow, further strengthening our balance sheet."

### **Third Quarter 2023 Segment Profitability**

- Aviation Gross profit of \$126 million, a decrease of 3% year-over-year. The decrease during the three months ended September 30, 2023
  was primarily attributable to lower physical inventory-related profitability as well as a rationalization of lower-return business activity. These
  decreases were partially offset by higher margins driven by our focus on improving returns in a higher interest rate environment.
- Land Gross profit of \$121 million, an increase of 3% year-over-year. The increase was primarily driven by continued growth in our sustainability-related offerings. This increase was partially offset by a decline in our core fuel business activity in North America, when compared to the third quarter of 2022.
- Marine Gross profit of \$35 million, a decrease of 54% year-over-year, principally due to the significant benefit from record bunker fuel prices and significant volatility in the third quarter of 2022.

### Year-to-Date 2023 Compared to 2022

### **Highlights**

- Gross profit of \$825.8 million, an increase of 2% year-over-year.
- Net income of \$87.7 million, a decrease of 6% year-over-year.
- Adjusted EBITDA of \$286.7 million, an increase of 5% year-over-year.

### **Segment Profitability**

- Aviation Gross profit of \$354.4 million, an increase of 44% year-over-year.
- Land Gross profit of \$342.8 million, a decrease of 5% year-over-year.
- Marine Gross profit of \$128.6 million, a decrease of 36% year-over-year.

#### **Earnings Conference Call**

### **Definitions and Non-GAAP Financial Measures**

This press release makes reference to "Net income." Net income means Net income attributable to World Kinect as presented in the Statements of Income and Comprehensive Income.

This press release contains non-GAAP financial measures (collectively, the "Non-GAAP Measures"), including the following:

- · adjusted income from operations;
- · adjusted income from operations as a percentage of gross profit;
- adjusted earnings before interest, taxes, depreciation and amortization ("EBITDA");
- · adjusted net income attributable to World Kinect; and
- adjusted diluted earnings per common share.

The Non-GAAP Measures exclude acquisition and divestiture related expenses, restructuring charges, impairments, gains or losses on the extinguishment of debt, gains or losses on sale of businesses, integration costs associated with our acquisitions, and non-operating legal settlements primarily because we do not believe they are reflective of our core operating results.

We believe that the Non-GAAP Measures, when considered in conjunction with our financial information prepared in accordance with GAAP, are useful to investors to further aid in evaluating the ongoing financial performance of the Company and to provide greater transparency as supplemental information to our GAAP results.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. In addition, our presentation of the Non-GAAP Measures may not be comparable to the presentation of such metrics by other companies.

Adjusted net income attributable to World Kinect is defined as net income (loss) attributable to World Kinect excluding the impact of acquisition and divestiture related expenses, restructuring charges, impairments, gains or losses on the extinguishment of debt, gains or losses on sale of businesses, integration costs, and non-operating legal settlements.

Adjusted diluted earnings per common share is computed by dividing adjusted net income attributable to World Kinect and available to common shareholders by the sum of the weighted average number of shares of common stock, stock units, restricted stock entitled to dividends not subject to forfeiture and vested restricted stock units outstanding during the period and the number of additional shares of common stock that would have been outstanding if our outstanding potentially dilutive securities had been issued.

Adjusted EBITDA is defined as net income (loss) excluding the impact of interest, income taxes, and depreciation and amortization, in addition to acquisition and divestiture related expenses, restructuring charges, impairments, gains or losses on sale of businesses, integration costs, and non-operating legal settlements.

Adjusted income from operations is defined as Income from operations excluding the impact of acquisition and divestiture related expenses, restructuring charges, impairments, and integration costs. Adjusted income from operations as a percentage of gross profit is computed by dividing adjusted income from operations by gross profit.

Investors are encouraged to review the reconciliation of these Non-GAAP Measures to their most directly comparable GAAP financial measures in this press release and on our website.

### **Information Relating to Forward-Looking Statements**

This release includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The forward-looking statements include, without limitation, any statement that may predict, forecast, indicate or imply future results, performance or achievements, and may contain the words "believe," "anticipate," "expect," "estimate," "project," "could," "would," "will," "will be," "will continue," "plan," or words or phrases of similar meaning. Specifically, this release includes forward-looking statements regarding expectations for our future plans and performance, and the expansion of certain of our products and services, including those relating to sustainability. Our forward-looking statements are qualified in their entirety by cautionary statements and risk factor disclosures contained in the Company's Securities and Exchange Commission ("SEC") filings, including the Company's most recent Annual Report on Form 10-K filed with the SEC. Actual results may differ materially from any forward-looking statements due to risks and uncertainties, including, but not limited to: customer and counterparty creditworthiness and our ability to collect accounts receivable and settle derivative contracts; sudden changes in the market price of fuel or extremely high or low fuel prices that continue for an extended period of time; adverse conditions in the industries in which our customers operate; our inability to effectively mitigate certain financial risks and other risks associated with derivatives and our physical fuel products; relationships with our employees and potential labor disputes associated with employees covered by collective bargaining agreements; our failure to comply with restrictions and covenants governing our outstanding indebtedness; the impact of cyber and other information security related incidents; changes in the political, economic or regulatory environment generally and in the markets in which we operate, such as the current conflicts in Eastern Europe and the Middle East; greenhouse gas reduction programs and other environmental and climate change legislation adopted by governments around the world, including cap and trade regimes, carbon taxes, increased efficiency standards and mandates for renewable energy, each of which could increase our operating and compliance costs as well as adversely impact our sales of fuel products; changes in credit terms extended to us from our suppliers; non-performance of suppliers on their sale commitments and customers on their purchase commitments; non-performance of third-party service providers; our ability to effectively integrate and derive benefits from acquired businesses; our ability to meet financial forecasts associated with our operating plan; lower than expected cash flows and revenues, which could impair our ability to realize the value of recorded intangible assets and goodwill; the availability of cash and sufficient liquidity to fund our working capital and strategic investment needs; currency exchange fluctuations; inflationary pressures and their impact on our customers or the global economy, including sudden or significant increases in interest rates or a global recession; our ability to effectively leverage technology and operating systems and realize the anticipated benefits; failure to meet fuel and other product specifications agreed with our customers; environmental and other risks associated with the storage, transportation and delivery of petroleum products; reputational harm from adverse publicity arising out of spills, environmental contamination or public perception about the impacts on climate change by us or other companies in our industry; risks associated with operating in high-risk locations, including supply disruptions, border closures and other logistical difficulties that arise when working in these areas; uninsured or underinsured losses; seasonal variability that adversely affects our revenues and operating results, as well as the impact of natural disasters, such as earthquakes, hurricanes and wildfires; declines in the value and liquidity of cash equivalents and investments; our ability to retain and attract senior management and other key employees; changes in U.S. or foreign tax laws, interpretations of such laws, changes in the mix of taxable income among different tax jurisdictions, or adverse results of tax audits, assessments, or disputes; our failure to generate sufficient future taxable income in jurisdictions with material deferred tax assets and net operating loss carryforwards; the impact of the U.K.'s exit from the European Union, known as Brexit, on our business, operations and financial condition; our ability to comply with U.S. and international laws and regulations, including those related to anti-corruption, economic sanction programs and environmental matters; the outcome of litigation and other proceedings, including the costs associated with defending any actions; and other risks detailed from time to time in our SEC filings. New risks emerge from time to time and it is not possible for management to predict all such risk factors or to assess the impact of such risks on our business. Accordingly, we undertake no obligation to publicly update or revise any forwardlooking statements, whether as a result of new information, changes in expectations, future events, or otherwise, except as required by law.
