Press Release, dated February 11, 2016.

**World Fuel Services Corporation Reports Fourth Quarter and Full Year 2015 Earnings****Consolidated volume increases 19% year-over-year****Generated operating cash flow of \$448 million in 2015**

MIAMI--(BUSINESS WIRE)--February 11, 2016--World Fuel Services Corporation (NYSE: INT) today reported full year net income of \$186.9 million or \$2.64 diluted earnings per share. Excluding the impact of certain one-time items, adjusted full year net income was \$193.3 million or \$2.73 adjusted diluted earnings per share. For 2014, net income as adjusted for one-time items was \$216.7 million or \$3.04 adjusted diluted earnings per share. Non-GAAP net income and diluted earnings per share for the full year, excluding share-based compensation, amortization of acquired intangible assets and other one-time items were \$225.1 million and \$3.18, respectively, compared to \$249.0 million and \$3.49 in 2014.

For the fourth quarter, net income was \$51.8 million or \$0.74 diluted earnings per share. Excluding the impact of one-time items, adjusted net income was \$52.7 million or \$0.75 adjusted diluted earnings per share. In the fourth quarter of 2014, net income as adjusted for one-time items was \$57.5 million or \$0.81 diluted earnings per share. Non-GAAP net income and diluted earnings per share for the fourth quarter of 2015, excluding share-based compensation, amortization of acquired intangible assets and other one-time items were \$62.1 million and \$0.88, respectively, compared to \$68.0 million and \$0.96 in the fourth quarter of 2014.

“Our performance during a period of macroeconomic turmoil in many of the markets we serve demonstrates the resiliency of our business model,” stated Michael J. Kasbar, chairman and chief executive officer of World Fuel Services Corporation. “We continued to leverage our integrated portfolio of products, services and technology solutions, while pursuing long-term growth opportunities that will drive sustainable shareholder value.”

For the full year, the company’s aviation segment generated gross profit of \$361.4 million, an increase of \$39.8 million or 12% year-over-year. The company’s marine segment generated gross profit of \$189.6 million, a decrease of \$16.0 million or 8% year-over-year. The company’s land segment posted gross profit of \$309.5 million, an increase of \$23.1 million or 8% year-over-year.

“Our balance sheet and strong cash flow profile provided us with the opportunity to pursue strategic initiatives and return \$71.0 million to shareholders through our stock repurchase program during 2015,” said Ira M. Birns, executive vice president and chief financial officer. “For 2016, our strong financial position will enable us to continue executing on additional organic and strategic growth opportunities, such as the ExxonMobil transaction announced this morning.”

---

## Non-GAAP Financial Measures

The non-GAAP financial measures exclude costs associated with share-based compensation, amortization of acquired intangible assets, expenses related to acquisitions, deferred revenue purchase accounting adjustments, the termination of employment agreement, the executive non-renewal charge and the gain on the sale of the crude oil joint venture interests (net of certain related operating expenses) primarily because we do not believe they are reflective of the Company's core operating results. We believe the exclusion of share-based compensation from operating expenses is useful given the variation in expense that can result from changes in the fair value of our common stock, the effect of which is unrelated to the operational conditions that give rise to variations in the components of our operating costs. Also, we believe the exclusion of the amortization of acquired intangible assets, the expenses related to acquisitions, the termination of employment agreement, the executive non-renewal charge and the gain on the sale of the crude oil joint venture interests (net of certain related operating) expenses are useful for purposes of evaluating operating performance of our core operating results and comparing them period over period. In accordance with the fair value provisions applicable to the accounting for business combinations, acquired deferred revenue is often recorded on the opening balance sheet at an amount that is lower than the historical carrying value. Although this acquisition accounting requirement has no impact on our business or cash flows, it adversely impacts our reported GAAP revenue in the reporting periods following an acquisition. We believe that the exclusion of the deferred revenue purchase accounting adjustment is useful to investors as an additional means to reflect trends of our business and provides investors with financial information that facilitates comparison of both historical and future results. We believe that these non-GAAP financial measures, when considered in conjunction with our financial information prepared in accordance with GAAP, are useful to investors to further aid in evaluating the ongoing financial performance of the Company and to provide greater transparency as supplemental information to our GAAP results.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. In addition, our presentation of non-GAAP net income and non-GAAP diluted earnings per common share may not be comparable to the presentation of such metrics by other companies. Non-GAAP diluted earnings per common share is computed by dividing non-GAAP net income attributable to World Fuel and available to common shareholders by the sum of the weighted average number of shares of common stock, stock units, restricted stock entitled to dividends not subject to forfeiture and vested RSUs outstanding during the period and the number of additional shares of common stock that would have been outstanding if our outstanding potentially dilutive securities had been issued. Investors are encouraged to review the reconciliation of these non-GAAP measures to their most directly comparable GAAP financial measures.

## Information Relating to Forward-Looking Statements

This release includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our expectations about our strategy on driving growth and delivering value. These forward-looking statements are qualified in their entirety by cautionary statements and risk factor disclosures contained in the company's Securities and Exchange Commission ("SEC") filings, including the company's Annual Report on Form 10-K filed with the SEC on February 12, 2015. Actual results may differ materially from any forward-looking statements due to risks and uncertainties, including, but not limited to: our ability to effectively integrate and derive benefits from acquired businesses, our ability to capitalize on new market opportunities, potential liabilities and the extent of any insurance coverage, the outcome of pending litigation and other proceedings, the impact of quarterly fluctuations in results, the creditworthiness of our customers and counterparties and our ability to collect accounts receivable, fluctuations in world oil prices or foreign currency, changes in political, economic, regulatory, or environmental conditions, adverse conditions in the markets or industries in which we or our customers and suppliers operate, our failure to effectively hedge certain financial risks associated with the use of derivatives, non-performance by counterparties or customers on derivatives contracts, loss of, or reduced sales, to a significant government customer, uninsured losses, the impact of natural disasters, adverse results in legal disputes, unanticipated tax liabilities, our ability to retain and attract senior management and other key employees and other risks detailed from time to time in the company's SEC filings. New risks emerge from time to time and it is not possible for management to predict all such risk factors or to assess the impact of such risks on our business. Accordingly, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, changes in expectations, future events, or otherwise.

## About World Fuel Services Corporation

Headquartered in Miami, Florida, World Fuel Services is a global fuel logistics, transaction management and payment processing company, principally engaged in the distribution of fuel and related products and services in the aviation, marine and land transportation industries. World Fuel Services sells fuel and delivers services to its clients at more than 8,000 locations in more than 200 countries and territories worldwide.

The company's global team of market makers provides deep domain expertise in all aspects of aviation, marine and land fuel management. Aviation customers include commercial airlines, cargo carriers, private aircraft and fixed base operators (FBOs), as well as the United States and foreign governments. World Fuel Services' marine customers include international container and tanker fleets, cruise lines and time-charter operators, as well as the United States and foreign governments. Land customers include petroleum distributors, retail petroleum operators, and industrial, commercial, residential and government accounts. The company also offers transaction management services which consist of card payment solutions and merchant processing services to customers in the aviation, marine and land transportation industries. For more information, call 305-428-8000 or visit [www.wfscorp.com](http://www.wfscorp.com).
